32PFT6500

Full HD Slim LED TV powered by Android

With Ambilight 2-sided

More than just good looking: the 6500 series FHD TV with the power of Android. We start with the Pixel Precise HD engine for brilliant images; then add Ambilight, modern design, and real materials to take your experience to the next level.

Beautiful attention to detail

- Modern design complements today's interior
- Angled Central stand is a play on geometry
- Ambilight changes the way you look at TV forever

Passionate about Picture Quality

- Natural Motion for fluid yet sharp moving images
- Micro Dimming optimizes the contrast on your TV
- Pixel Precise HD engine: discover vivid Picture Quality

With Android your TV can do it all

- Dual Core processing and Android OS for strong performance
- Android: for a faster, richer, more personal TV experience
- Keyboard remote control makes texting easy
- Spotify Connect—share your favorite music on TV

PHILIPS

Full HD Slim LED TV powered by Android™ with Ambilight 2-sided and Pixel Precise HD

80 cm (32") Full HD LED TV, Dual Core; 8GB & expandable, DVB-T/T2/C

Highlights

Angled central stand

We chose a sophisticated high-gloss silver finish as the foundation for our Angled Central stand, and then paired it with an ultra slim angled neck to create a TV design that blends beautifully with any modern interior.

Modern contemporary design

Designed with a contemporary look to blend with your décor. Because your TV should look as beautiful off as it does on.

Ambilight 2-sided

You've created a home that's more than just a house, so why not choose a TV that is warm and inviting too? Philips unique Ambilight technology makes your screen much wider—and your viewing experience more immersive—by emitting an extra wide glow from two-sides of your TV screen onto the surrounding wall. Color, vibrancy and excitement move beyond the screen and into your living room to bring you a viewing experience beyond the ordinary.

Natural Motion

You love watching movies, but demand the best image possible. Natural Motion is our motion enhancement technology that resolves

judder, providing you with a smooth moving image. Films are recorded at a limited frame rate of 24 frames per second resulting in judder. Natural Motion doubles the number of frames to 50 motion changes per second. This resolves judder, so all you see is a fluid, sharper image.

Micro Dimming

Thanks to our special software that analyzes the picture in 6400 different zones and adjusts it accordingly, you'll enjoy incredible contrast and image quality for a truly lifelike visual experience.

Pixel Precise HD

Pixel Precise HD optimizes picture quality to deliver fluid, yet sharp moving images with beautiful contrast, detail and depth. You'll enjoy deeper blacks and brighter whites. The most vivid, brilliant colors and natural, lifelike skin tones. It's just like being there.

Dual Core + Android

With Android on your TV you'll navigate, launch apps and play videos in a way that is super fast, super intuitive, and super fun. The Android robot liberates the power of our Dual

32PFT6500/60

Core processor to get things done with speed and ease.

Android

With Android on your Smart TV you'll enjoy a fast processor and user-friendly interface. Its your launch control to endless content: from Google Play™, to Netflix, to an Internet Browser... and so much more. There's an easy to navigate menu with direct links to your favorites.

Remote Control with Keyboard

Take control. Our totally intuitive remote control has all the usual perks like cursor keys, volume control and short cut buttons. Flip the remote over to access a full keyboard for easy text entry in any situation.

Spotify Connect

All your favorite music is stored on your phone—but wouldn't you rather hear it on your more powerful TV speakers? With Spotify Connect, you can easily play Spotify on your TV using the Spotify app on your phone as a remote. Just hit the play button and the music will switch to your TV speakers. No wires, no hassle... just sit back and relax.

Full HD Slim LED TV powered by Android™ with Ambilight 2-sided and Pixel Precise HD
